EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas B. Haverstock on January 12, 2007.

The application has been amended as follows:

Non-elected claims 11-16 have been cancelled.

Claims 23 and 24 have been cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The apparatus as claimed in the claims, specifically: a seal energizer that comprises a seal-energizing cavity coupled to the upper element and configured to maintain the upper element against the lower element by a sealing pressure generated within the seal-energizing cavity and a pressure controller configured to automatically non-linearly vary the sealing pressure to lag a processing pressure generated within the processing volume and maintain the processing volume during processing (claim 1); a lower element coupled to a seal-energizing cavity, wherein the upper element and the lower element are configured to be brought together to form a processing volume; and means for automatically non-linearly varying a sealing pressure within the seal-energizing cavity to maintain within a preselected range a difference between a sealing force and a

force generated within the processing volume, thereby maintaining the processing volume (claim 10); and means for maintaining the processing volume by sensing the processing pressure during processing and automatically generating a sealing pressure that non-linearly lags the sensed processing pressure (claim 22) were not found in or suggested by the art.

Claims 10 and 22 both include means plus function limitations under 112 sixth paragraph. These are defined in figure 11 of the specification as argued in paragraph I(B)(2) of the arguments filed October 16, 2006.

Applicant's arguments, see pages 12-25, filed October 16, 2006, with respect to the rejections found in the Office Action mailed July 13, 2006 have been fully considered and are persuasive. The rejections have been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrie R. Lund whose telephone number is (571) 272-1437. The examiner can normally be reached on Monday-Thursday (6:30 am-6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Parviz Hassanzadeh can be reached on (571) 272-1435. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
